

TAKING RESEARCH TO THE EUROPEAN LEVEL

FP7 WEEK IN LUXEMBOURG

5-9 July 2010

LUXEMBOURG - KIRCHBERG
CONFERENCE CENTRE
CHAMBER OF COMMERCE

TAKING RESEARCH TO THE EUROPEAN LEVEL

The Seventh Framework Programme for research and technological development (FP7) is the European Union's main instrument for **collaborative research in Europe**. The seven year programme with over € 50 billion to spend is now reaching its midterm. Nevertheless, with an increase of up to **40 % of available budget** for the period **2011-2013**, a considerable amount of money is still available for the co-financing of research, technological development and demonstration projects.

CALL TIME IS COMING UP – BENEFIT FROM THE OPPORTUNITIES FOR EUROPEAN RESEARCH

At the **end of July 2010**, the European Commission will publish **new calls for proposals covering all key thematic areas of European Research**. These calls are a major opportunity for obtaining funding for European collaborative R&D projects.

FP7 – GOOD REASONS TO PARTICIPATE

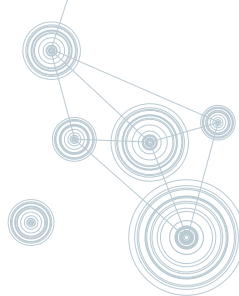

European projects offer a wide range of opportunities. SMEs, industry, universities, research centres, associations or public authorities ... all find good reasons to participate :

- Involvement in leading-edge research projects ;
 - Funding of research and development projects ;
 - Potential new clients and markets ;
 - Increase of visibility and competitiveness on the European level ;
 - Access to knowledge and technologies of pan-European consortia.
-

DON'T MISS THE FP7 WEEK IN LUXEMBOURG

During the FP7 week, Luxinnovation – National Contact Point for the FP7 in Luxembourg – will organise every afternoon a different workshop covering specific thematic areas thus allowing you to:

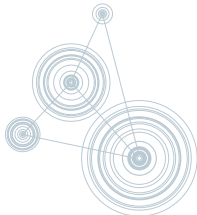

- Get detailed information on the content of the upcoming calls;
- Know more about the key elements of a successful proposal;
- Learn about practical experience from companies already participating in European Research programmes;
- Find out about the "Fit4Europe" support scheme and the Accompanying Measures by the FNR that help Luxembourg companies, research institutions and University to participate in FP7 and the assistance offered by Luxinnovation as National Contact Point;
- Meet potential research & innovation or business partners.
